OFFICIAL STATEMENT ON SETTLEMENT New Gadget WALK-OUT

A meeting between the Dockyard Employers and the representatives of the Chinese Engineers Institute under the Chairmanship of the Commissioner of Labour took place in the Urban Council Chamber at 2.30 p.m. on Thursday, September 11, 1947.

The first point for discussion was the question of the remuneration of foremen. The Commissioner of Labour stated that he had that morning interviewed a number of foremen from the various dockyards in the presence of the Union representatives. He had explained to these. men that the employers were not prepared to negotiate the terms of their remuneration as part of the questions under negotiation with the Chinese Engineers' Institute.

As to this, it is well settled that in mitigation of damages a defendant cannot go into cyldence which, if proved, would constitute justification. Bht where the facts are admitted. I amenot aware of any authority which precludes court, when assessing damages, from considering to what extent, if any, the plaintiff's detention was unlawful. If the court were satisfied that upon a proper construction of law the plaintiff either suffered no legal, wrong at all or one much less than the defendant had admitted, it would be a manifest absurdity that the court should nevertheless be bound to award him damages based upon an erroneous view of the legal position, morely because the defendant had been wrongly advised.

Housewives In A Uproar

London, Sept. 11. A meeting of the British Housewives League here began and ended today in an uproar, as special details of Bobbies hovered about in the event of possible bloodshed.

The meeting, attended by about 500 branch secretaries and members, was charged with an atmosphere of excitement over rumours of a revolt against the League chairmanship of Dorothy Crisp. They were not disappointed.

At one point there was a wild scramble to capture the microphone, which reached a climax when the opposition succeeded in disconnecting the apparatus.

Minute "timebombs" planted in germ cells of survivors of the atomic bomb attacks on Japan eventually will kill hundreds of thousands of persons throughout the world, possibly including even descendants of men who made the bomb, a scientist said today.

California Petrol Tax For Roads

California's war-torn . highways are to get a \$64,000,000a-year face lifting by order of the state Jegislature.

The state's lawmakers - approved a bill raising the state gasoline tax from three to four and a half cents a gallon and providing for other revenue increases deemed necessary for a modern system of highways.

For the state that has the most vehicle registrations - and the most traffic faialities - in the nation, it is big news. It means that the rocky, two-

lane pavements on many of the main arteries will be-replaced by four-lane, divided highways built according to most modern engineering standards. It means also more "freeways"

in the blg metropolitan centres of Los Angeles, San Francisco, and Oakland, whose war-swollen populations in effect are choking their street systems to death.

The new highway bill landed on Gov. Earl Warren's desk only after six months of bitterlyfought rear-guard action by the oil companies, trucking firms and others who will pay a large share of the cost of the programme.

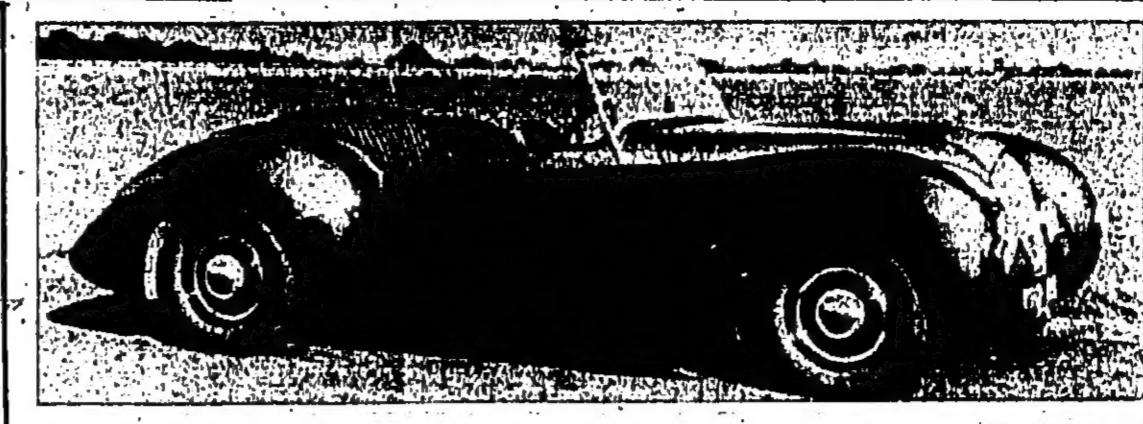

The opposition's strength was mostly in the State Assembly. which for five and a half months refused to yote for a gas tax increase of more than on cent even after the Senate had scaled cents to one and a half.

ARGENTINA WANTS TO KNOW

Buenos Aires, Sept. 11. The Argentine Government's suspension of shipments of tinned meat to Britain. is purely a short term measure for no other purpose than to prod the British Government into a speedy settlement of the problems arising from the suspension of sterling convertibility, a reliable source declared here tonight. .

"Argentina has no intention of not selling meat to Britain, hut she wants to know now where she sbinds regarding future trade between the two countries", it was added .-Reuter.

RATIONING DOWN UNDER Melbourne, Sept. 11.

Australians are likely to be rutioned with meat and butter for "a very long time" because of Britain's needs, a spokesman of the Australian Rationing Commission said here sterling's infernational use can be today.

Senator B. Courtice, the Australian Minister for Customs, said today that the dollar situation would probably prevent Australia abolishing clothes rationing this year .-

Washington, Sept. 11. Representative Adolph Sabath today urged the United States to refuse further economic aid to Britain until the British reopen Palestine to Jewish immigration.

In a letter to President Truman, Sabath also denounced the forced debarkation of the "Exodus 1947" refugees. said the British Government not only "remain unmoved by the plight, of the chief victims of Nazi lust but seemed to be hent on emulation of the Nazi fiends.'

Sabath said Britain is indebted to the United States for its "very existence" and should be required to "keep its promises H.K. Govi. Leaner 4% Loan 1966; and discharge its responsibilities without evasion and delay."
